What do you think a good CV should include?

 MounaAbed about 10 hours ago
A good CV should include personal information, education and professional Experience

 MounaAds about 10 hours ago
It depends, but I think the most important is Training and experience. Sometimes, we can put hobbies, interests also

 HamadiSoula about 10 hours ago
Typically a CV contains all or most of the sections listed below:

- Name and contact details
- Personal statement
- Skills
- Work history
- Achievements
- Education
- Interests and hobbies
- Referees.

 RahmaAbbessi about 10 hours ago
Good Hamadi, but I think there should be a section covering the skills and abilities like the computer skills and the language skills.

 KarimaSouissi about 10 hours ago
A good CV must include A 'Personal Profile' or 'Career Objective' - It si important for the employer to know your objectives from applying for the job!

Why ICT?
